

DECON 2019 Students Have Changed a Life!

Ali Muhammad (India)

Badipora is a town in Kashmir. It sits on the famous Silk Road which connects Europe to Asia. It was travelled by silk merchants for centuries. 62-year-old Ali Muhammad lives in Badipora but he doesn't travel anywhere. His leg had to be amputated because it was crushed in a road traffic accident. He sits – all day – every day – and watches the rest of the world pass him by on the bustling Silk Road.

BUT because of the Hope Disability Centre and We Help Two he was given a new prosthetic leg. He already has got the hang of it and plans to use his new mobility to continue working to support his family.
